

Zeroth Review

The Zeroth Review related to identification of the project to be carried out must be completed within 15 days of project group formation. For this brief power point presentation of tentative title, problem identification, proposed work and methodology or technology to be adopted for carrying out the project presentations. The presentations may be made in the department in presence of all faculty members along with the Project Coordinator and Head of the department.

This presentation should be in particular about the project work plan and overview about the proposed work. Faculty members will approve the proposed work and give suggestions, if any in the interest of project proposals during presentation.`

It is mandatory to submit the Project Approval Form to the Project Coordinator prior to the commencement of zeroth review presentation.

project progress review evaluation
